

Bandbiografie

Skansis is a band from Emmental (Switzerland) that is specialized in melodic hardrock. If you appreciate bands like Gotthard, 3 Doors Down or Europe then you will like these guys. In the past they have played as opener for bands like Krokus, 3M (ex Whitesnake), Bonfire, Züri West and Shakra and it wouldn't take a long time until they will be headliner.

Skansis was founded in 2000 under the name of Shine. Since 2005 the band's name is Skansis. Their debut album 2007 is called „Take Your Chance“ and it was released europe-wide. There are 12 tracks on this CD and they absolutely don't have to hide as compared to international standards.

May 27, 2011 will be the release date of the second album “Leaving You” with 12 brand new and varied songs. This CD - as last time - was recorded at Powerride studios (CH), mixed by Thom Blunier (Shakra) and mastered at MSM studios in Munich (DE). Producer is band member Bax Heiniger.

2015 the long-standing members Menz Pfister (Bass) and Matthias Hagmann (Drums) have left the band.
